# Wind Wavers™ Cross Base Sidewalk Stand Installation Instructions

## Step 1:

Remove all parts from cases. Separate all pieces. Number of pole pieces may vary depending on pole size.

Stackable Heavy Duty Poles

Adapter

Cross Base Sidewalk Stand

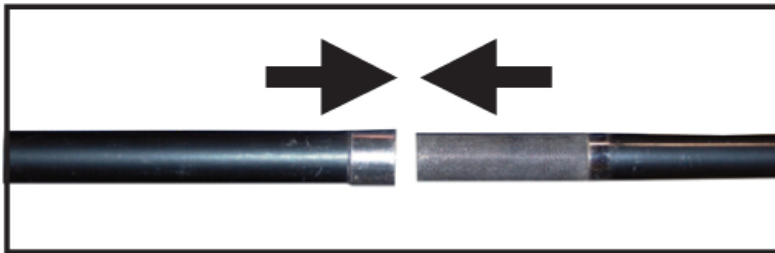

Sand Bag

Sand Bag to be filled with 30 lbs. of sand or pea gravel by customer.

## Step 2:

Assemble poles by placing smaller end into larger end. Set assembled pole aside and move to next step

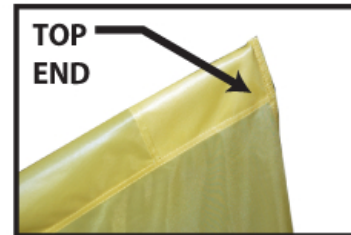

## Step 3:

The four arms fold out to create the base. Add sand bag for stability. Place adapter on center pole of stand.

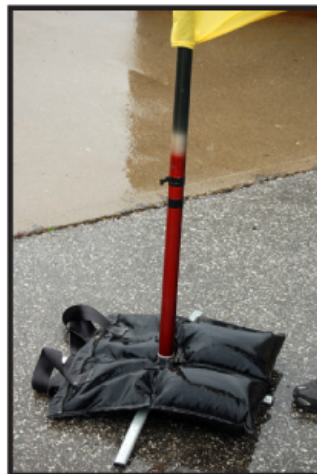

## Step 4:

Slide pole into sleeve on flag and hold firmly. **NOTE:** Be certain the tip of the pole is fully inserted into the reinforced **TOP END** of the sleeve. Attach bungee to clip on the bottom section of the pole.

## Step 5:

Place assembled pole directly on top of adapter and center pole on cross base sidewalk stand.

Completed Wind Wavers™ Classic with Cross Base Sidewalk Stand
