

## Step 1:

Remove all parts from cases. Separate all pieces. Number of pole pieces may vary depending on pole size.

Stackable Poles

Bungee Cord

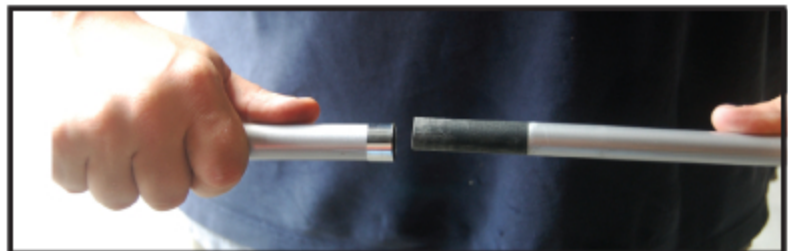

Cross Base

Sand Bag  
(filled with sand or  
pea gravel by customer)

## Step 2:

Assemble poles by placing smaller end into larger end.

## Step 3:

The four arms fold out to create the base. Add the filled stand bag for stability.

TOP END

## Step 4:

Slide pole into sleeve on flag and hold firmly. **NOTE:** Be certain the tip of the pole is fully inserted into the strengthened **TOP END** of the sleeve.

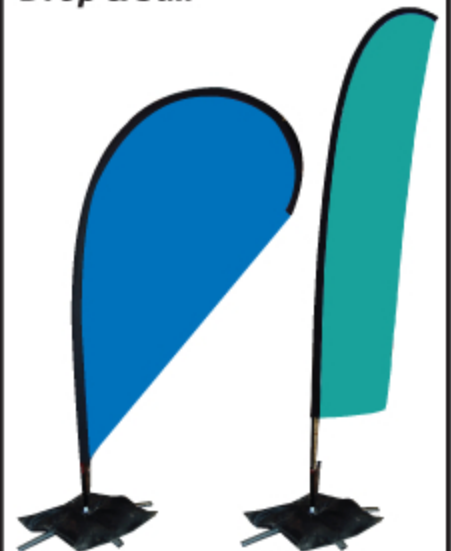

## Step 5:

Align the two tabs at the base of the stand then attach one end of the bungee to the **BOTH** tabs to ensure stability. While holding the pole and flag securely, place the other end of the bungee cord in the loop at the base of the drop flag.

## Completed Wind Wavers™ Drop & Sail

**Caution: DO NOT install or fly flags in 20 mph winds.**
